## Test & Measuring Instrument Rental & Sales Services

Celebrating 20th Anniversary  
**EZU 20Years**  
20 Years in Quality Testing

感謝客戶對 **EZU 20年**來的支持

**Thank you for supporting us in the past 20 years!**

## RTX PRESS RELEASE

### RTX測試設備獲DECT Forum推薦為CAT-iq 2.0的認證射頻設備

**NOERRESUNDBY, 2011年2月22日** - 最近，DECT Forum宣布了CAT-iq 2.0認證計劃正式開幕，並介紹了RTX2011為CAT-iq 2.0的建議認證測試儀。

RTX2011是一個靈活的測試解決方案，用於測試不同類型附有CAT-iq功能的設備。此外，RTX2011也支持DECT GAP和DECT6.0設備的射頻測試。RTX2011能完全兼容傳統的DECT標準，更可利用可選模塊升級以支持最新的CAT-iq標準。

RTX的射頻測試儀可以作為一個獨立的解決方案，也可用於由小型到大型規模化生產所設置的自動測試設備 (ATE)，以具競爭力的價錢從而增加靈活性和提高性能。

RTX2011是在認證測量、研發和生產上的唯一商用CAT-iq射頻測試儀。該測試儀目前被大部分CAT-iq設備製造業的主要品牌和供應商應用。

## RTX Test Equipment Recommended by DECT Forum as RF Certification Equipment for CAT-iq 2.0

**NOERRESUNDBY, February 22, 2011** - Recently, the DECT Forum announced the opening of the CAT-iq 2.0 Certification Program and presented the RTX 2011 as one of the recommended Certification Testers for CAT-iq 2.0.

The RTX2011 is a flexible test solution for testing of a wide range of different CAT-iq enabled devices. In addition to this, the RTX2011 supports RF tests of both DECT GAP and DECT 6.0 devices. The RTX2011 is fully compatible with legacy DECT standards and can be upgraded with an optional module to support the latest CAT-iq standards.

RTX's RF Tester can be used as a standalone solution, or it can be applied in Automated Test Equipment (ATE) setups in small to large scale production; thereby, adding flexibility and high performance at a competitive price.

The RTX2011 is the only commercially available CAT-iq RF Tester for certification measurements, R&D, and production purposes. It has been accepted by most of the major brands and providers of CAT-iq equipment manufacturing today.
